SSS	Suspension Superstore
MTS	MaxTrac Suspension Store
SRS	SunroofSource / Legacy Products
VXW	Vision X Wholesale
TBD	New Shopify brand (May–June 2026)

Recommended next steps

1. **Delete 7 flows** — 1 superseded SSS flow (Check Order Status old), 5 Vision X stubs, 1 Legacy novelty flow (Peanut Butter). All have zero tickets.
2. **Decide on 6 Legacy Products flows.** If Legacy/SunroofSource chat remains active, keep and rename with SRS prefix. If the brand is winding down, delete.
3. **Rename 10 active flows** (6 SSS + 4 MaxTrac) using [Brand] - [Intent] - [Channel] convention.
4. **Investigate the 14 orphaned flows** that appear in the backend but not in the UI. These may be safe to ignore, but worth confirming they're not consuming resources.
5. **Plan for the new Shopify brand** (May–June 2026). Decide which flows to clone for the new store and assign the TBD brand code.
